MODE OF ELECTION

(By Associated Press.)

WILKESBARRE, PA., June 5.—Since the reported statement of Judge Gray taking sides with the miners in their contention that their first conciliation rommittee was legally elected, the miners have taken a new stand and prominent officials of the mine-workers in this city state to-day there would very likely be a suspension of work unless the operators recede from their position. The opinion of the chairman of the Coal Strike Commission is regarded by the miners as a vindication of their position and has stirred them to resist the stand of the company's representatives and to linsist on the recognition of their board as first selected.

NEGROES AND WHITE

MEN IN POOL-ROOM

(By Associated Press.)

NEW YORK, June 5.—Two hundred white men and one hundred and ffty negroes were arrested to-day in a aid by the police on the sileged pool room of "The" J. Allen, on Sixth Avenue. The entrance was forced through front and rear doors by detectives with axes. As the police ascended the stairs there was a rush of the prisoners to get out, but drawing revolvers the police continued their search.

COL, JOHN S. HARWOOD FOR STATE SENATOR

There is a strong move among the friends of Colonel John S. Harwood to induce him to announce his candidacy for State Senator from Richmond city, to fill the new sent created by the recent

for State Senator from Richmond city, to fill the new sent created by the recent reapportlonment.

So far the only avowed aspirant for the new senatorship is Hon A. C. Harman, one of the present House members, and should Colonel Harwood decide to come in, the race would be a pretty one. The latter gentleman is popular to a degree, and enjoys a wide and favorable acquaintance among all classes of voters. He has twice represented the city in the House of Delegates with marked distinction, and at the end of the second term declined a re-lection.

Colonel Harwood was asked yesierday if he had any idea of entering the race for senator, and he said he had been so much engaged with private affairs as to be unable to give the matter any consideration, though he admitted that he was being asked by friends to run. The term of the new senator is for four years, and whoever is chosen will vote for a successor to Senator Thomas S. Martin.

number of the members were in attendance.

The feature of the session was the resolution adopted endorsing Division 152 of the Street Railway Employes, in their negotiations with thecompany, and pledging their financial and moral support to the men in the event of a strike. Before the adoption of the resolution several of the young women spoke, and said that they would willingly walk to and from their employment should a strike result from the present contention.

The yote was unanimous by which the resolution was carried. A committee was appointed to convey the action of the union to the street car men, who were then in sessions.

Counsel Make Statement.

His counsel to-night made a statement, saying:

"Upon Mr. Machen's arrest we demanded an immediate hearing, but at the result of the government a continuance was had until June 6th. Mr. Machen and his counsel had every reason to believe that me steps would be taken to deny him the preliminary examination. The sunarcities responsible for the issuance of this warrant have seen proper to finis the attention of the grand jury has in consequence indicted Mr. Machen and before the United States commissioner If you want the reasons for this proceeding you will have to seek it from the prosecution. We do not know. Suffice it to say that the legal effect of this course of policy (which is unusual and unfair, fi not unprecedented in this judication) is to deprive the defendant of an open public investigation into the truth of the charges, to which he is fairly entitled, and which a sound public policy vauchsafes to him."

(By Associated Press.)

LOUISIANA, MO., June 6.—The Sny leves broke just below this city to-day, and the Mississippi is now falling here at the rate of six inches per hour on account of the break. The Sny is the most important leves on the north bend of the river and is seventy miles long. In some places it is twenty-eight feet high and eighty feet across at the base. It incloses a fertile farming section from three to seven miles wide, containing more than 100 000 acres. There are several towns within the district, the population of the probably ten thousand. Many of tem remained and losses of life is cert.

This district has not been overflowed since 1888, and the damage will run into the millions. The break occurred at a point used by the railroad as a roadbed. It was unexpected until just before the break occurred. When seen a rush was made to repair, but forty yards went out and a current poured through.
